- 14 Marginalization Post-Election?
- 16 Trust in Government
- 18 Significance of the Muslim Swing Vote

## Methodology:

Between November 30th through December 7th, EmergeUSA commissioned Triton Polling to conduct “Automated (IVR) telephone calls”<sup>1</sup> to a landline phone list of registered Muslim voters. All individuals surveyed were questioned if they identify as Muslim. As a result, all survey responses in this report are from self-identified Muslims.

The 2016 American Muslim Post-Election Survey used the sampling technique of Registration-Based Sampling (RBS) for probability indications. Sample sizes were calculated based on the population size of registered Muslim voters derived from the Voter Access Network through EmergeUSA's proprietary Muslim name match algorithm.

<sup>1</sup> By cause of federal regulations requiring cellphone numbers to be dialed manually, only landline phone numbers were utilized to conduct this survey.

<sup>2</sup> Due to the shortage of survey responses in the state of Ohio, the concluded results were based on a sample size of (N = 450).

### Sample Sizes:

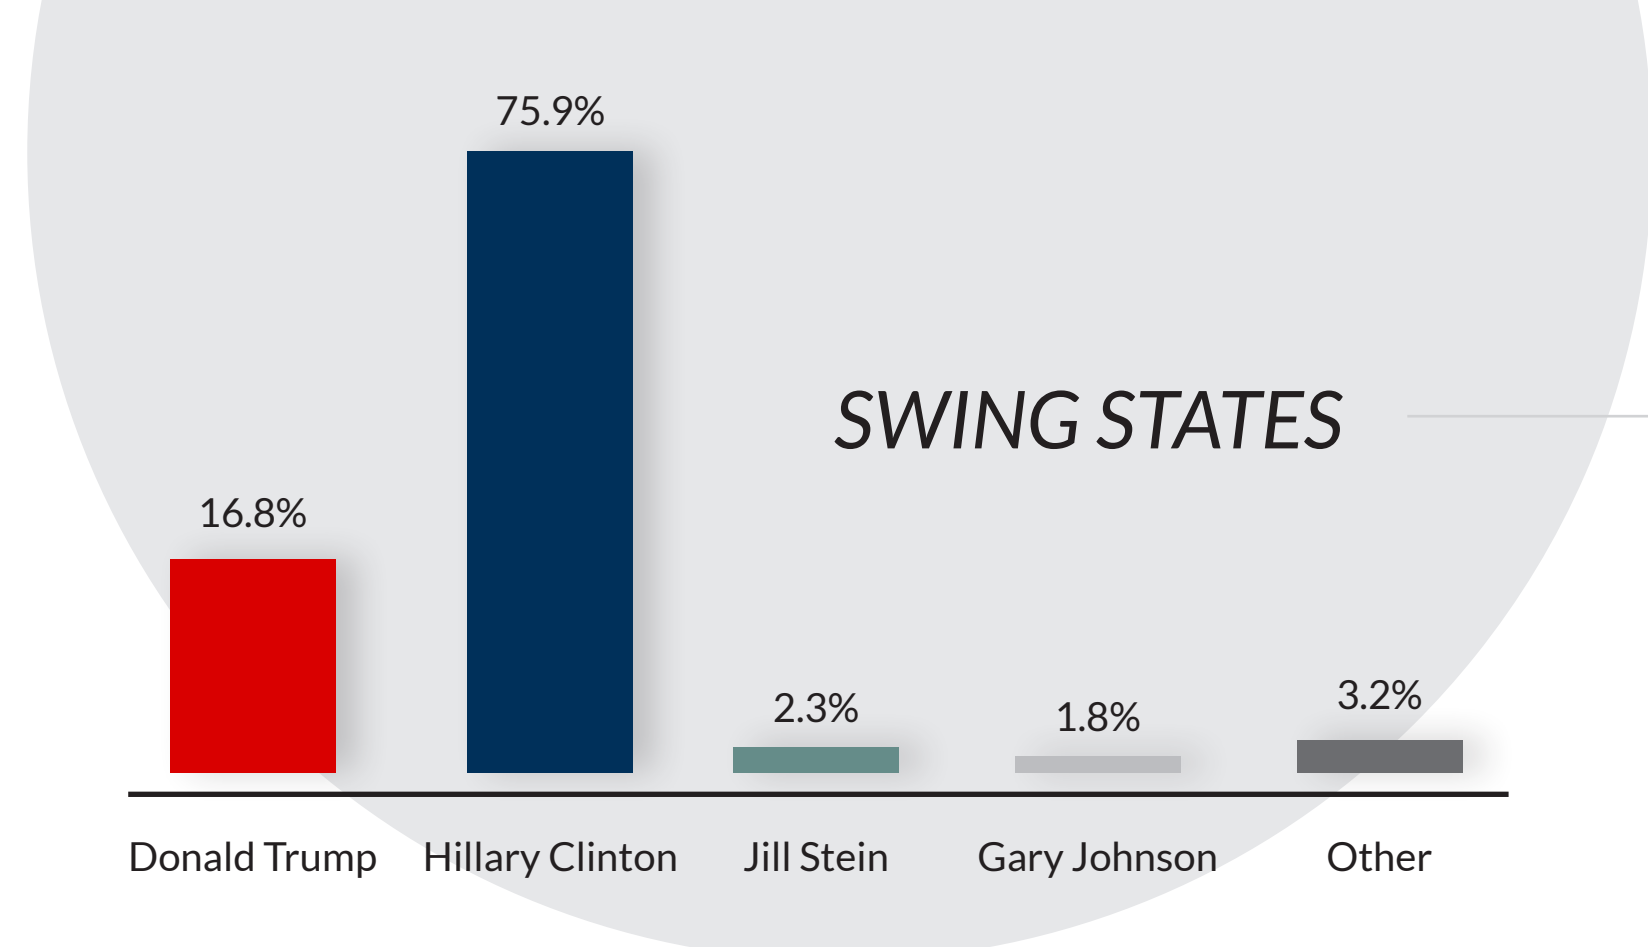

Florida	(N = 749)
Virginia	(N = 752)
Michigan	(N = 751)
Pennsylvania	(N = 760)
Ohio	(N = 731) <sup>2</sup>

The sample size was determined based on a 90 percent confidence level of  $\pm 3$  percent of margin of error. This means that 90 times out of 100, the results will be within about 3 percentage points of what they would be if all registered Muslim voters in a swing state were interviewed.

The weighting applied to survey responses was age and gender.

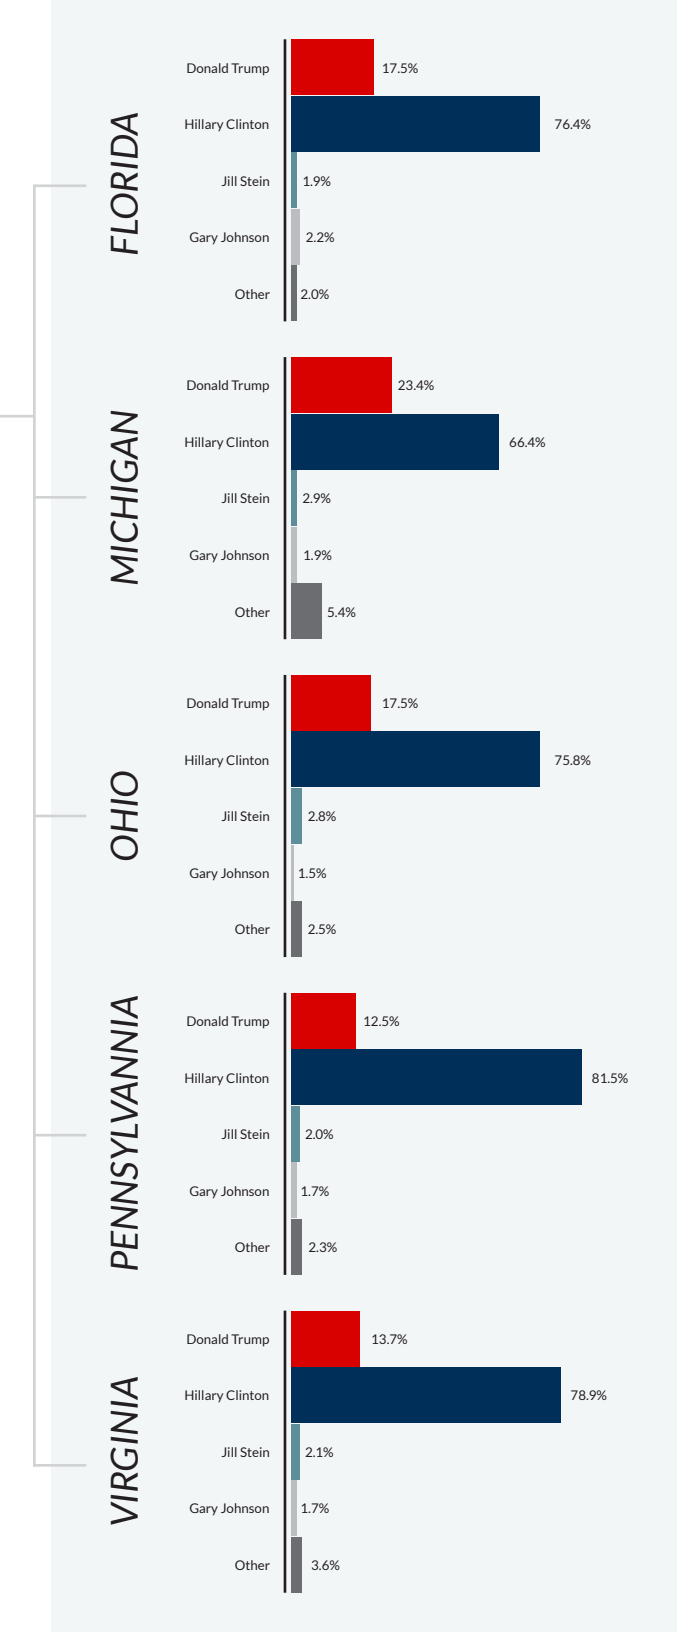

# Who did Muslims vote for President?

## KEY INSIGHTS

Muslims in *Michigan* were the largest supporters of **Donald Trump**, **Jill Stein**, and “**Other**” compared to the other four swing states.

*Pennsylvania* Muslims had the most turnout for **Hillary Clinton** compared to the other four swing states, despite Pennsylvania swinging for **Donald Trump**.

# Distribution of Muslims across political parties:

Age Distribution Across Self-Identified Party

	30 & Younger	31-40	41-50	51-60	61-70	71-80	81+
<b>Democrat</b>	<b>56.7%</b>	56.1%	48.5%	54.3%	53.3%	51.4%	45.2%
Independent, or not a member of a party	28.0%	29.8%	<b>36.1%</b>	31.5%	27.5%	27.5%	17.2%
<b>Republican</b>	12.4%	10.1%	13.5%	11.3%	15.3%	18.8%	<b>31.2%</b>
Not Sure / Don't Know	1.2%	2.3%	1.2%	2.1%	<b>3.3%</b>	1.8%	3.2%
